

DAIWA 11 CAM BALANCE SYSTEM

- Sharing the same feature set with the Daiwa 15, the Daiwa 11 is a heavy-duty fluid head for moderately weighted cameras
- Superior performance with cameras weighing 13 to 25 lbs.
- Once mounted and balanced, the camera load is perfectly counter balanced throughout the tilt range of +90° to -60°
- Full range of controls including infinitely adjustable drag for tilt and pan movements

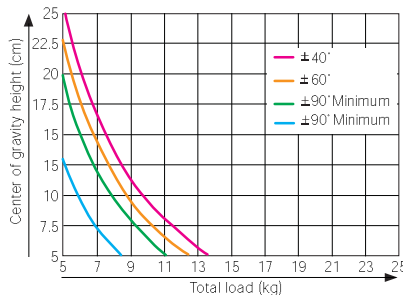

Model No.	11
Weight	9.25 lbs. (4.2kgs)
Capacity	13 to 25 lbs. (6 to 11kgs)
Tilt Range	+90° to -60°
Pan Range	360°
Ball Base	100mm Claw type
Drag / Friction	Variable Viscosity- Field Adj.
Temperature Range	-4°F ~ +122°F (-20°C ~ +50°C)

DAIWA 08 CAM BALANCE SYSTEM

- One of the most popular sized heads in the broadcast community, more and more users are discovering the Daiwa 08 as lighter-weight DV cameras proliferate
- The professional Cam Balance System creates smooth performance with a full range of drag controls for tilt and pan movements
- A compact design and all metal construction offer years of outstanding reliability
- Designed for outstanding performance with DV cameras weighing 13 to 20 lbs.

Model No.	08
Weight	7.04 lbs. (3.3kgs)
Capacity	13 to 20 lbs. (6 to 9kgs)
Tilt Range	+90° to -75°
Pan Range	360°
Ball Base	75mm Claw type
Drag / Friction	Variable Viscosity- Field Adj.
Temperature Range	14°F ~ +122°F (-10°C ~ +50°C)

DAIWA 05 SPRING BALANCE SYSTEM

- Durable all-metal head construction handles a recommended load of 4 to 11 lbs.
- Sliding camera mount plate with 50mm of movement forward or rearward to properly balance the camera
- Professional disk type pan and tilt brake
- Pre-set counter balance and movement drag

Model No.	05	Pan Range	360°
Weight	3.6 lbs. (1.65kgs)	Ball Base	75mm Claw type
Capacity	4 to 11 lbs. (1.8 to 5kgs)	Drag / Friction	Constant Viscosity System
Tilt Range	+90° to -72°		

TRIPOD LEG SET

309CF 100mm

- Multi-layer carbon fiber material
- Maximum height of 59 inches
- Three leg sections for greater capacity
- 100mm bowl for mounting heads
- Perfect for the Daiwa EP56, Daiwa 15, Daiwa 11 and other heads with 100mm mount

Model No.	309CF
Max. Height	59.25 in. (1505mm)
Min. Height	23.62 in. (600mm)
Weight	6.32 lbs (2.9kgs)
Ball Base	100mm
Leg Sections	Three (3)
Folded Length	28.34 in. (720mm)

No. 309 100mm

- Maximum height of 62 inches
- Three leg sections for greater capacity
- 100mm bowl for mounting heads
- Perfect for the Daiwa EP56, Daiwa 15, Daiwa 11 and other heads with 100mm mount

Model No.	309
Max. Height	62 in. (1574mm)
Min. Height	17.44 in. (443mm)
Weight	8.14 lbs. (3.7kgs)
Ball Base	100mm
Leg Sections	Three (3)
Folded Length	27.38 in. (695.4mm)

No. 209 100mm

- Maximum height of 61 inches
- Two leg sections for fast set-up and fold down
- Durable all aluminum rail construction
- 100mm bowl for mounting heads
- Perfect for the Daiwa EP56, Daiwa 15, Daiwa 11 and other heads with 100mm mount

Model No.	209
Max. Height	61.14 in. (1553mm)
Min. Height	28.58 in. (726mm)
Weight	7.92 lbs. (3.6kgs)
Ball Base	100mm
Leg Sections	Two (2)
Folded Length	35.15 in. (892.9mm)

No. 307 75mm

- Three leg sections for greater capacity
- 75mm bowl for mounting heads
- Perfect for Daiwa 08, Daiwa 06 and Daiwa 05 heads
- Mid-level spreader included (removable)

Model No.	307
Max. Height	61.02 in. (1550mm)
Min. Height	28.93 in. (735mm)
Weight	6.61 lbs. (3.0kgs)
Ball Base	75mm
Leg Sections	Three (3)
Folded Length	35.15 in. (892.9mm)

No. 207 75mm

- Durable all aluminum rail construction
- Two leg sections for fast set-up and fold down
- Mid-level spreader included (removable)
- 75mm bowl for mounting heads
- Perfect for Daiwa 08, Daiwa 06 and Daiwa 05 heads

Model No.	207
Max. Height	57.28 in. (1455mm)
Min. Height	24.50 in. (635mm)
Weight	6.16 lbs. (2.8kgs)
Ball Base	75mm
Leg Sections	Two (2)
Folded Length	33.15 in. (842.1mm)
