

EP Batteries

EP-L100V/EP-L100A
30% Slimmer 30% Lighter

EP-L150V
15% Smaller, 15% Lighter,
New Design Package

EP-L300V/EP-L300A
Same weight, less size
30% capacity improvement

EP Series Batteries

EP-L100V/EP-L100A

Optimized design to make the battery 30% slimmer.
30% lighter.

Highest capacity lithium Ion Battery Pack that can
be legally transported without restrictions.

Capacity: 98Wh
Size: 98mm × 148mm × 37.7mm
Weight: 1.21 lbs
Nominal Runtime (26W): 3.7hrs

EP Batteries

EP-L150V/EP-L150A

The shape is optimized 15% smaller and 15% lighter but with the same capacity as the traditional XP-L150S/XP-L150A battery. Best power to weight ratio in the industry.

Capacity:147Wh
Size:90mm×148mm×61.5mm
Weight:1.76 lbs
Nominal Runtime(26W):5.6hrs

EP-L300V/EP-L300A

Designed to meet the demands of heavy duty power applications, the EP-L300V/EP-L300A will deliver unrivaled performance. Compare to XP-L230, EP-L300 has same weight but less size, and 30% capacity improvement.

Capacity:293Wh
Size:98mm×148mm×78.3mm
Weight:3.09 lbs
Nominal Runtime(26W):11hrs

P-Tap port

All PRO-X Brick batteries have an incorporated P-Tap port so you can power virtually any 12VDC device. Those who have cameras which limit the current output to the onboard port can now simply tap into the battery.

USB Port

The unique USB port outputs standard DC 5V It can power for mobile devices.

Four-Step Remaining Capacity LED Display

All Brick batteries have a Four-Step remaining capacity LED display, so you can quickly reference the charge status of the battery in 25% increments.
